OBJECTIVE

MCA student with expertise in Python, Java, C++, cloud computing, and software development. Skilled in building database-driven applications, automation tools, and AI-powered solutions. Passionate about problem-solving, learning new technologies, and delivering efficient software solutions.

EDUCATION

Masters of Computer Applications (MCA), RCPET's IMRD, Shirpur 2025 – 2027
CGPA: 9.23

Bachelor of Computer Applications (BCA), Pratap Collage - Autonomous, Jalgaon 2022 – 2025
CGPA: 8.93

Higher Secondary Certificate (HSC), Maharashtra State Board 2022
Percentage: 77.17%

SKILLS

Technical Skills	Python, Java, C++, JavaScript, SQL, Debugging
Tools	GitHub, Linux, VS Code, Termux, NPM, Claude AI, Google Gemini, Codex
Soft Skills	Problem Solving, Communication, Teamwork, Leadership, Adaptability, Quick Learning

ACHIEVEMENTS

- **Rank-II Winner – Code Carnival 1.0 Hackathon (2025-26):** Secured second rank by developing an innovative AI-driven solution, demonstrating expertise in software development, problem-solving, and technical implementation.
- **CSI Project Competition Winner (2025-26):** Recognized for presenting **DaemonDoc**, an innovative software project focused on intelligent documentation and productivity enhancement at Computer Society of India (CSI) Student Branch, IMRD Shirpur.
- **Research Presenter – Aavishkar 2025:** Presented research work at KBC North Maharashtra University's District Level Research Convention under the Post Graduate (PG) category, demonstrating research, analytical, and technical communication skills.

EXPERIENCE

Business Operations Associate 2022 – Ongoing
Padmavati Jewellers, Maharashtra *India*

- Assisted in day-to-day jewellery store operations including sales, customer handling, and product guidance.
- Managed billing, packaging, and basic financial entries during regular and peak business hours.
- Maintained inventory records, gold weight logs, and stock updates to support smooth store management.
- Coordinated with suppliers, artisans, and customers to ensure timely delivery and service.
- Supported seasonal sales events and helped optimize overall workflow and customer satisfaction.

PROJECTS

ALTER – AI Code Debugging Platform Developed an AI-powered debugging platform using Google Gemini API for code analysis, error detection, and debugging assistance with authentication and multi-language support.

DRAGX – Developer CLI Tool Built a command-line automation tool for Git workflows, project initialization, and developer setup automation, improving workflow efficiency by ~15%.
